

Comité Technique Ministériel du 6.2.20 - LDG : Attaque sévère du droit des agents

Finally, the last CTM of the series started on 18 December 2019 and ended on 6 February 2020 with a unanimous vote **against** the project of management lines, text adopted by the Ministry of Justice! Thanks to the mobilization of staff and representatives of the CGT, this CTM will be the place of successive amendments and interventions rather than the chamber of registration hoped for by the General Secretariat!

LA CGT DENONCE CE PASSAGE EN FORCE AU DETRIMENT DU DROIT DES AGENTS

The text that is adopted today will be applied from 2020: it fixes for the vast majority of staff the rules that will govern mobility for 2020: common corps, clerks... and leaves for some specific corps (CPIP and teachers PJJ) an area of negotiation with the administrations of tutelage in order to define the rules of operation only for this year.

These rules will become stricter for the period 2021-2023 with discussions on a minimum and maximum duration on post, non-publication of PSDV, profiling of a number of posts always larger. **They will also be applied from 2021 to advancement**, with consequences that could, still, be particularly heavy.

But the CGT will remain on the side of the agents, and will continue to denounce and fight against these projects. No one is duped by the attempt of communication of the 1st organization of the universe with the « culot n'a d'égal que sa duplicité »! To paraphrase the little son of A. Croizat. Who sat in full boycott for the day of mobilization on pensions? Who has stopped playing corporatism and denying paritarism from the elections, notably the role of elected CAPists of each corps? Who, finally, was completely absent in the services and mobilization?

C'est la combinaison de la mobilisation des personnels, des audiences de la CGT IP, et la recherche d'appuis politiques qui a permis de limiter la casse pour cette année 2020.

For the complete report: <http://www.cgtspip.org/compte-rendu-du-ctm-sur-les-lignes-directrices-de-gestion-relatives-a-la-mobilite-des-30-decembre-2019-6-janvier-16-janvier-et-6-fevrier-2020/>

Like all mobilized colleagues since weeks, the CGT Insertion Probation, she, is already back to the offensive on Friday 7 Feb by obtaining from the DAP an audience to arbitrate the modalities of mutation of CPIP.

**Le combat doit se poursuivre,
il en va de la pérennité de notre statut
et du sens du service public.**

Notre combat ne peut se mener sans lutte : les LDG sont la porte d'entrée de tout ce que la CGT dénonce dans notre Ministère : rupture d'égalité de traitement, clientélisme, discriminations latentes... et via la réforme des retraites ! 2020 n'est que l'amorce d'une dégradation sans précédent de la carrière des agents !

On the grounds, in the services, mobilization can also be translated by questioning the local directions as to their positioning on their future practices, since it is they who will have the power *in fine* to derogate from mobility criteria by putting in place or not interviews with agents demanding their mutation.

MOBILITE - AVANCEMENT - RETRAITES

LE DROIT DES AGENT.ES MERITE TOUTE NOTRE MOBILISATION !
